THANK YOU---ONCE AGAIN

Again we want to thank our many customers for the generous orders sent in during the past season. Thanks, also for the many nice letters sent us, telling us how pleased you were with your bulb orders. That is the way we want it. If our bulbs and service please you--tell us and your friends. If there is any cause for dissatisfaction--please give us a chance to make it O.K. We aim to send out healthy, true to name varieties. Any of us may make errors, but it is not intentional and if called to our attention, we will gladly make suitable adjustment.

EXTRA BULBS FOR RETAIL CASH ORDERS --

\$5.00 to \$15.00--10% in bulbs; over \$15.00-20% in bulbs of our choice. However, if you will send a list of varieties you would like as extras, will try to give you your choice as far as stock permits. If we send our choice, you will get a greater value in bulbs of our best varieties. These will not include any '49 introductions or those marked "No Discount", or any special collections which we may list. We give generous overcount on all orders, wholesale and retail.

BUSINESS TERMS

Minimum orders \$2.00. Retail orders are prepaid. Quantity orders F.O.B. Johnson City, N.Y. Quantity orders shipped via Express, unless otherwise notified. If you do not live where you have Express Delivery service, please notify us at time of order and advise how to ship. Kindly send either money orders or checks for payment--no stamps--please. Do not ask us to split a unit as quoted in the price list. Order as many units as desired. Canadian orders must be accompanied by express permit for F.O.B. orders.

ACKNOWLEDGEMENT OF ORDERS

Your order will be acknowledged as soon as received in our office. Bulbs will be shipped as near to date requested as it is possible to get them out. The past few winters, the weather here has been mild enough to enable us to ship bulbs practically all winter. If you live where the climate is unfavorable for shipping during our winter months, kindly notify us at time of order. Orders can be shipped any time required after Jan. 1st.

F.O.B. ITEMS

If your order contains both F.O.B. and retail items, we will ship them together in one package, F.O.B. but will give you enough overcount and extras to more than offset the carrying charge on the retail items. If you prefer the two classes shipped separately, please mark order blank accordingly.

ORDER BULBS EARLY

Send in your bulbs orders now, to avoid disappointments later in the season. Stocks of some varieties are limited, so make your choice now while we have most sizes in all varieties listed. Orders will be

filled in order of date filed in our office. No substitutions made on your order without your permission. Many times we have the variety wanted, but are out of the particular size mentioned in your order. If you will allow us to substitute the same value in a different size, please advise on order. This will save much correspondence and be a big help to us in filling your order. If blooming size bulbs are ordered and we cannot supply that particular size, will fill order with blooming size bulbs, not with small bulbs or bulblets, unless asked to do so. If you allow us to substitute another variety in the event we are sold out on the one ordered, you will receive a greater value than the original order. Full cultural directions will accompany every order. Please **PRINT** your name and address very plainly on order to avoid delays and errors in shipping.

BULB SIZES

Large size measure 1 1/4" and up. Medium size 3/4" to 1 1/4", small size 1/4" to 3/4". Bulblets screened over 6 to inch mesh, washed and measured in dry measurements which are approximately 15% more than liquid measure.

CLASSIFICATION AND VARIETY CODE

After the variety name you will find a name in parenthesis--this will be the originator's name. At the right of this you will find two sets of numbers-such as: 366-75. The first in the set of numbers designates that the bloom is in the 300 class for size, the last two digits-66 denotes the color class according to the NAGC Classification list. The last two numbers after the dash-such as 75, means that that is the approximate number of days it should take for a large bulb of that variety to bloom after planting. This varies in different climates and with weather conditions etc. Where prices are listed as L, M. and S and BLTS, this means Large, Medium and Small bulbs and BULBLETS. All bulbs New York State Inspected, Certificate #917.

TULIPS, DAFFODILS, HYACINTHS, DELPHINIUM

This year we have added a full line of the best Holland varieties of Tulips, Hyacinths, Daffodils, and Pacific Hybrid Delphinium. Visit our gardens next spring and place your orders while you can see them in bloom.

We offer the following 1949 releases from Konynenburg and Mark of Holland: HENRI DE GREEVE, JO WAGENAAR, BEERSHEBA, BENJAMIN BRITTON, CIRCE, SMYRNA and TOBRUK (the beautiful black one so many admired at our gardens this season). Also the following recent EUROPEAN INTRODUCTIONS

JEANETTE	WHITE HERALD
J.V. KONYNENBURG	

Descriptions of above varieties will be found in our general list.

The above European varieties were all grown in our fields this past summer and all listed, performed very well. The bulbs of these we offer for sale, were all grown at our gardens.

We observed the growing habits of these European varieties and found them all worthy of adding to our collection. We exhibited them at the following shows this summer: Peekskill, N.Y., Lebanon, Pa., Elmira, N.Y., Oneida, N.Y., Boston, Mass., and Binghamton, N.Y. All who saw them will surely want to have some of these varieties included in their order this year. Supplies of these American grown bulbs are limited, so place your order early.

SUGGESTIONS FOR DIPPING, DUSTING AND SPRAYING

LYSOL DIP, which we recommend be used on every bulb and bulblet planted, no matter from what source they were obtained:

4 tablespoons of Lysol	or	1 pint of Lysol
3 gallons of water		25 gallons of water.

Soak bulbs in the Lysol solution for at least 3 hours and not longer than 6 hours. Soak bulblets overnight or 12 to 14 hours. After bulbs or bulblets are removed from the solution, allow to drain for a few minutes and plant same day as treated, preferably while still wet.

NEW IMPROVED CERESAN DIP

1 ounce New Improved Ceresan
3 teaspoons Grasselli Spreader Sticker or 3 teaspoons Dreft
3 gallons water

To get a good preparation easily, mix the Ceresan and wetting agent together, add a little water at a time, and stir until a uniform mixture is obtained. **DO NOT USE THE HANDS WHEN STIRRING.** Soak bulbs in the solution for 15 minutes, stirring several times during treatment; soak bulblets for 30 minutes. After bulbs or bulblets are removed from the solution, allow them to drain for about 30 minutes, and plant **IMMEDIATELY.** Delay in planting can cause injury to the bulbs. If the ground is dry at planting time we suggest the Lysol treatment instead of the Ceresan Dip, as dryness can cause a delay in germination or growth besides possible injury to the bulbs.

DUSTING FOR THRIPS

The easiest and most efficient means of controlling THRIPS is to dust the foliage of the plants with 5% D.D.T. Begin dusting when plants are in third leaf and continue about every ten days to two weeks until the spikes start to show color. Best results will be obtained when the dust is applied to the plants while the dew is still on them.

SPRAYING FOR THRIPS

1 rounded teaspoon of 50% D.D.T.
1/2 teaspoon of Dreft
1 gallon of water

For larger plantings-1/2 lb. 50% D.D.T., 1/2 pint liquid soap, 25 gallons of water. The Wettable form of D.D.T. should be used when using a spray material.

CAUTION: Lysol, New Improved Ceresan, and D.D.T. are poisonous and care should be taken in handling and storing these materials. Do not inhale D.D.T. dust.

D.D.T.

50% Wettable D.D.T. for spraying

1# pkg. - postpaid \$1.35
4# pkg. - postpaid 3.45

**JOIN A GLADIOLUS SOCIETY
FOR GREATER ENJOYMENT AND THE
LATEST INFORMATION ON GROWING GLADS**

Every Glad Society puts out some very valuable literature that you will get lots of enjoyment out of reading. The latest methods of controlling bulb disease, of dusting, spraying, digging, storing of bulbs, the best dips, records of show winners, experiences of other glad growers etc. will be found in the different bulletins published at various times throughout the year. The annual dues are, in most cases, from a dollar to two dollars. Any one of the bulletins or Yearbooks put out by these societies are well worth the small cost of joining.

The three national societies are:

The New England Gladiolus Society, Inc., dues \$2.00 annually-publications are: 6 magazines and a yearbook.

Sec'y, Mr. Arnold N. Drake, Horticultural Hall, Boston 15, Mass.

The North American Gladiolus Council, annual dues \$1.00-publications: Quarterly bulletins.

Sec'y, Mr. Alfons Bazdorf, Lincoln Park, N.J.

Canadian Gladiolus Society, annual dues \$2.00-publications are: Yearbook and variety symposium.

Sec'y, Mrs. J.A. Carlton, 166 Willow Road, Guelph, Ontario, Canada.

And don't forget to join your State or local organization. It needs your support to bring this information to all of you.

Join ESGS (EMPIRE STATE) today. Dues \$1.50 annually. Sec'y Dr. Gordon McKenney, 175 Croydon Rd., Rochester 10, N.Y.

EASTERN INTERNATIONAL GLADIOLUS SHOW-1949

Don't forget to plan your vacation to include Aug. 16 and 17 so that you may attend the greatest glad show in the East. All glad fans, Commercial growers, hybridists and hobbyists are invited to attend and exhibit at this show, which will be held as a tribute to its founder, the late Mr. C.D. Fortnam.

Commercial men desiring space, please write Mr. Joseph Frederick, show manager, 53 N. Baldwin St., Johnson City, N.Y.
